## Outdoor Dining

---

### Policy Objective

The City recognises the role outdoor dining plays in creating a vibrant capital city and destination of choice for all community members, visitors and tourists. The City is committed to providing businesses with the support they need to deliver a safe, accessible and successful outdoor dining service.

### Policy Scope

This policy applies to all businesses within the City's local government area that currently, or propose to, provide an outdoor dining service.

### Policy Statement

Outdoor dining is matched perfectly to Perth's climate and presents an opportunity to demonstrate our city's natural beauty to community members, visitors and tourists. A vibrant outdoor dining landscape generates activity throughout the City's various precincts, in turn delivering positive economic and social outcomes for the City, community and businesses.

As a City committed to inclusion, outdoor dining will be accessible to patrons of all abilities. Design and function standards will account for diverse needs. The City will ensure that the movement of pedestrians and vehicles will not be adversely affected by any outdoor dining operation. The use of public thoroughfares for outdoor dining will complement the design and accessibility of the City's streetscapes.

The expectations of business, community and tourists will change over time. The City understands the importance of providing an outdoor dining framework able to respond to trends, demands and moving priorities as they arise. The City will actively look for ways to incentivise business participation in outdoor dining by reducing regulatory burden, while ensuring compliance and innovation is not compromised.

This policy will not apply to mobile food trading or events of a 'pop-up' nature where food is served.
