Note:
1. Granite footpath pavers are 795x395x40mm Austral Verde.
2. Joints between pavers are 5mm ± 2mm.
3. Set out with full paver from back of kerb.
4. Pavers are laid in stretch bond pattern perpendicular to kerb.
5. Contraction, isolation and construction joints set out as per engineers specification.

Fibre Reinforced Concrete:
- Concrete Strength to be C32/40
- Maximum 20mm aggregate.
- Fibre Name: Dramix
- Fibre Type: RC 65 / 60 BN
- Fibre Dosage: 20kg/m³
- Supplier code: DC103.02 (supplier list: 10.30)
