Corner of Beaufort Street & James Street Mall Intersection	26/09/2017	20/12/2019	07:00	17:30	1. Removing one of the street signs on Beaufort Street (the tow-away sign closest to the CAT bus stop)2. Extending the footpath cross-over 2.5m-3m north on Beaufort Street from where it is currently located. If we can't get this length, anything that is acceptable will assist.Both of these actions would be in support of allowing larger trucks exiting our project to turn into the north-bound lane of Beaufort Street traffic without disrupting south-bound traffic (i.e. crossing over the double white line medium strip)	Footpath - Partial Obstruction	C/- Multiplex Constructions Pty Ltd	0457 763 398
Barrack Square adjacent to Probuild Construction site.	27/02/2017	11/02/2019	07:00	19:00	Amendments to existing road configuration to allow for safe crane lifting and concrete pours for Lot 10 Elizabeth Quay Lots 9 and 10. 3 meetings have occurred between city of Perth and Probuild to discuss this. Final meeting carried out 07/02/17 as attended by Maree Anderson, Graham Newson, Aidan Hogan, George Terpkos. City of Perth and Mitchell Fwy North	29/01/2019	20/02/2019	07:00	19:00	Works will involve GHD Pty Ltd to undertake Geotechnical Works at various locations along the Mitchell Freeway and the City of Perth. The works will be undertaken in three phases: • Underground service location at all investigation positions. This will involve driving a Ute to location or nearby, and then an operator will walk around the site with a GPR scanner to determine if there are underground services in the area. The works will only need to be on the location anywhere between 0.5hr to 1.0hr. • Borehole drilling: test locations are labelled with the prefix 'BH'. The majority of locations are off the road, with only a couple of the shorter holes actually on the road. The boreholes will involve a small tracked rig, but access will also be required for a water truck and a flatbed truck. The works will remain stationary on position for the duration of 1 to 2.5 days, requiring access in and out at the start and end of each day. • CPT testing: locations are labelled with the prefix 'CPT'. The testing will be done from either a 22 tonne truck rig or smaller 12 tonne tracked rig sitting on location for about 1hr to 1.5hr. The tracked rig will arrive on site on the back of a flatbed truck, and will need space to unload and load the rig.
